Dear Ms Kamesheni Muriën

RE-ACCREDITATION AS A CHEMICAL INDUSTRIES EDUCATION AND TRAINING AUTHORITY (CHIETA) PROVIDER

The CHIETA would like to congratulate **Quality Training and Consulting** in **Kwa-ZuluNatal** (Accreditation number: **BUC 101**) on the achievement of full accreditation status for the following NQF registered qualification/s and or unit standard/s:

- **GETC: Chemical Operations, NQF 1 (66029)**
- **National Certificate: Chemical Operations, NQF 2 (78527)**
- **National Certificate: Chemical Operations NQF 3 (78528)**
- **FET Certificate: Chemical Operations NQF 4 (78529)**

This full accreditation is valid for a period of five years ending on 07th April 2020. This means that **Quality Training and Consulting** in **Kwa-ZuluNatal** may continue to operate as a fully accredited provider for five years for the above mentioned standards/qualifications or for the lifespan of the qualification if this expires before the five year period. This accreditation is subject to the re-establishment of the CHIETA as a SETA beyond 2016 by the Department of Higher Education and until any new legislative changes are implemented. This accreditation is also subject to the QCTO pronouncement on current qualifications and any new legislative changes that may be implemented.

The Provider's attention is drawn to the fact that implementing your Learning Programme(s) must take into account the Credit value and Notional hours assigned to the Unit Standard or Qualification and that your Training and Assessment Resources should adequately cover both the practical and theoretical aspects of the Unit Standards or Qualification to justifiably achieve the Credit Value and Notional Hours. This is especially important if you are implementing Learnerships

Sincerely

Ayesha Itzkin
